Recommendations

“Jane’s commitment and energy and excellent instinct in choosing the very right thing is without question. She is always dedicated and totally reliable, particularly in a crisis. Another important quality is her overall contribution to the creative solution; with well-balanced observations and valued opinions. I really can’t speak highly enough of her.”

John S Clarke, Director

“I have worked closely [with Jane] for over eight years in commercials and music videos. She is bold and stylish in her creative decisions while still totally understanding the subtleties of the brief she has been given. Jane is always coming up with creative solutions. Her paperwork is faultless and her budget reconciliations a sight to behold. ...she is hardworking, good fun and does not accept bullshit from subcontractors or uncooperative crew. Jane is a good team player whose only agenda is doing the job right ...[she] has a solid understanding of styling and is well versed in the history of Art and Design.”

Marc Homes, Production Designer
