January 2017 - Drew up plan for Garden for Private House on commission from Mary Keen and Pip Morrison design partnership.

September 2016 - January 2017 - Worked as a Junior Designer for White Label Network

As a student I was inspired, among others, by Es Devlin. I particularly like the way she picks up her client's personalities and style and gives it physical expression, an example of this would be the set she designed for the Myley Cyrus Bangers tour where she turned her tongue into a fiberglass slide. With the wide range of designers I have worked for so far, I am starting to appreciate how many different ways there are of doing things. I am really looking forward to gaining more experience and understanding how each designer develops their signature style while remaining responsive to the clients' needs. I really enjoy the energy of working in a team, I like the buzz and drama of meeting deadlines and the practicality of making things.
