

CLEM CARTWRIGHT SET DECORATION

Clem Cartwright is a London-based designer of fictional spaces.

She developed her design vocabulary through a BA in History of Art (Hons) at Leeds University before completing a Masters in Interior Design at Parsons School of Design in New York.

Her interest in storytelling and a fascination with the way we stage objects in the home led her into the world of film and immersive installation art.

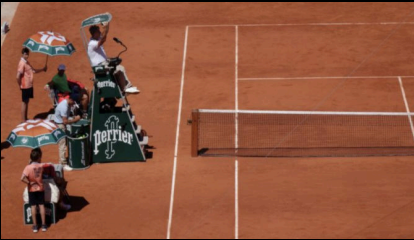

Past production companies include Apple TV, BBC, ITV, Amazon Prime, Comedy Central and BFI.
