Clare Horwood

Set Dec Assistant

Full Clean Licence 25+

Passionate about Film & TV and books, my career changed direction after eight years in the education profession; I took a leap to follow my creative personality and have just finished my first production as a Set Dec Trainee. Using my existing skills from the classroom, I have quickly developed new ones: Script breakdowns, referencing, embroidery design, sourcing textile samples and asset co-ordination. From prep to wrap and location standby, everything about Set-Dec makes my heart sing and am looking forward to my next opportunity, to learn more skills and see where this journey takes me.
