TRAINING + EDUCATION

All Spring Media Art & Props Department Trainee Bootcamp at Sky Studios Elstree 2026:

Intensive two-week industry
bootcamp covering set-
etiquette and essential
trainee skills for the art
department in the film
industry.

Masters of Illustration/ Animation & BA(HONS) Animation at Cardiff Met- ropolitan University 2018-2022:

Developed strong skills in
visual storytelling,
composition and animation
through practical projects.
Explored the impact of
lighting, colour and framing
on audience perception and
engagement. Produced a range
of animation and illustration
work demonstrating narrative
and technical ability.

ABOUT ME:

I am someone who has loved Film and TV since I was little, and being deeply creative I was led to study animation. I'm organised and like to focus on the details, so whilst on the Art Department Bootcamp it all clicked for me that film Graphics is where I belong. I learned confidence and responsibility while working and traveling abroad. I have excellent skills in traditional drawing and painting as well as experience from my degree in Photoshop and Illustrator. I am a very logical person so I thrive with recreation, repetition and love a bit of a research project. And I genuinely am so enthralled by the industry and culture that I would just love to be involved however I can.

EXPERIENCE:

Production Assistant - Music Video (2021) & Three Personal Film Projects (2017-2019)

General assistant, helping with cameras, lighting, shooting. I managed scripts, props and assisted with continuity. As these were small productions so I wore a lot of hats trying my hand at everything in a quick paced environment.

Image Specialist - Yodify, Calgary, Jan - April 2023

Created and updated sample websites from provided content, improving visual consistency and creating brand identity. Edited and optimised images to ensure quality and cohesion across digital platforms, while maintaining accuracy with a high level of attention to detail.

Product Photographer - Lost Boys Vintage, Toronto, April - June 2023

Photographed vintage clothing for e-commerce, with a focus on composition, lighting and visual consistency. Styled products to align with brand aesthetic and enhance online presentation.
