STATEMENT

Coming from a Fine Art background, I have a deep appreciation for visually rich and stimulating film sets, particularly period-specific designs as well as stylised, sleek and modern interiors.

An MA in Production Design solidified my passion for conjuring and creating immersive spaces, while my love for antiques and unique objects fuels my excitement when hunting for the perfect pieces to bring these environments to life.

With over 10 years of experience in the Film and Televisions industry, my blend on artistic vision and practical experience positions me to create captivating spaces that enhance storytelling through design. I bring creativity, expertise, and a keen eye for detail . Ready and eager to take on new and exciting projects.
