 @sacha___molyneux

Profile

I’m a **creative problem-solver** with an unusual hybrid of hands-on experience - spanning design, construction management, crafting and styling.

With a **learner’s mindset**, I’ve invested time understanding the artistic process behind a production, building a holistic view across the materials, processes and talent that contribute to a vision.

I love every stage of **bringing a set to life** - researching, sourcing, collaborating, logistics, prepping and being on set - whether in a studio, on location, in the office, or scouring a prop house.

I’m currently looking to expand my knowledge and skillset by assisting within **Film, TV, Commercials** and **Brand Activations**.
