Represented by Art Department

I focus on building original visual worlds that breathe with life and satisfying detail. My practice can move fluidly from narrative to commercial to music promo to editorial. Over the past 6 years I've collected a completely wonderful little black book of prop makers, artists, timely van drivers, late night printers, tasteful buyers and a loyal on set team. This creative team and I operate with initiative and passion. In my sets I treasure moments of aesthetic rhyme, magic realism, folk and intelligent nods to brand, character and plot.

I hope to create a collective work process that is thoughtful, open handed and rewarding for all collaborators.
